

# MONTHLY NEWSLETTER

August 2026

# Staff Moments

*My name is Netty, although I was christened Jeannette. I usually only get called that when I am in trouble. I was born in Liverpool and have lived in Longstanton for 18 years, with my two sons, two cats and my chubby pug named Dave, which is also my partner's name. I am a trained nurse, midwife, science teacher and counsellor, and I love football, poetry and life in general.*

*Ria, one of our 15 lovely care staff. A familiar, steady face on the floor and a big part of why the home feels as settled as it does.*

*Rose took over as manager in May and has settled into the role brilliantly. In a short time she has become well respected and fondly thought of by staff, residents and families.*

# Resident Moments

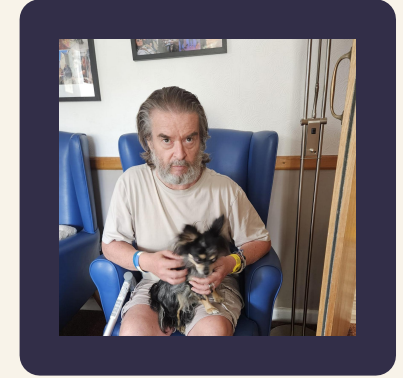

*Sandra's bench, now in place in the garden. Donated by her sister Leslie and family in memory of a much loved resident.*

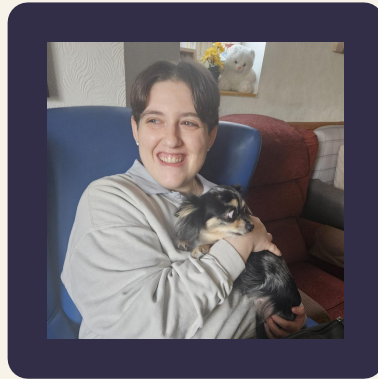

*Mark, an ardent Arsenal supporter.*

*Danny with Luna. He is at Milton Artworks two days a week and always has plenty to tell us when he gets back.*

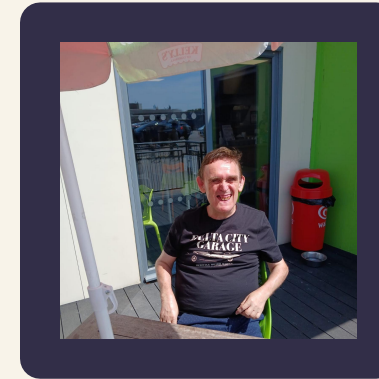

*Jason, our newest resident, who has settled into the Chamarel family very nicely.*

*Luna has settled in beautifully. The communal areas have felt calmer and happier since she arrived.*

*Relationships with partners are encouraged.*

*Andrew is out in the sunshine! A table outside, good weather and no rush to be anywhere.*

# Thank You

This is our very first newsletter, and we would love to know what you think of it.

We have plenty of ideas for the next one, including a family page where relatives and friends can share their own news, photos and memories with everyone at Chamarel.

Please do get in touch with any comments, thoughts or advice. You know where to find us, and anything you tell us will be very welcome and taken on board.

Follow us on Instagram at **@chamarelhealthcare** for more!

With warm wishes,  
The Chamarel Healthcare Team
